Directory of Services

Better doctors. Better care.[sm]

McLAREN
HEALTH CARE VILLAGE *at* CLARKSTON

THE NEW MCLAREN HEALTH CARE VILLAGE AT CLARKSTON promises to be the premier destination for area residents seeking convenient care. Offering nearly everything in outpatient care from one location, the McLaren Health Care Village at Clarkston includes the 135,000-square-foot Clarkston Medical Building, the 42,000-square-foot Great Lakes Cancer Institute–Clarkston (GLCI–Clarkston) and a rejuvenating five-acre Garden of Healing and Renewal.

The Clarkston Medical Group—a local, well-known primary medicine group practice—is located in the Clarkston Medical Building. The building also houses an urgent care center, breast care center, ambulatory surgery center, sleep diagnostic center, bariatric center, wound care clinic, home medical equipment store, and physical therapy, sports medicine and fitness center. Additional specialty health care is provided here, too, including the services of more than 20 specialty physicians, as well as laboratory medicine services.

Next door to the Clarkston Medical Building is GLCI–Clarkston. Opening June 2009, this facility will offer area residents state-of-the-art radiation therapy, advanced medical oncology care and mobile PET/CT imaging, as well as educational programming, family support services and a retail center catering to the specific needs of those fighting cancer.

The Garden of Healing and Renewal was created to help patients and care providers focus their healing energies. But, it is open to the community to use and enjoy, too. The garden contains beautiful paths, sitting areas, fountains and sculptures, providing a calm natural setting for healing, exercising, reflection and quiet chats.
